

The SCR solution

Robust and flexible

benefits

- **IMO Tier III** emission compliance
- **Operate in IMO II mode outside ECA to lower urea consumption**
- **Certified products** and **certification services**
- **Tailor-made design** for both first fits and retrofits
- **Global service** and spare parts supply

technical description

- **Air assisted dosing system** for long-term reliable operation
- **Catalyst of different geometry** and formulation for customized layout
- **Flexible design of mixing pipe and converter** to fit complex engine room geometries

*hug*engineering.

applications

- Tugboats
- Dredgers
- Inland waterway vessels
- Ferries
- Port authority vessels
