

Compact SCR Solution

Fits in all engine rooms

BENEFITS

- **The most compact Tier II / Tier III switchable SCR on the market**
- **IMO TIER III certified product** - adaptable to TIER II engines
- **Reliable, robust & flexible, switchable outside ECA Zone**
- **Global Service** and spare parts supply
- **External piping highly flexible**

TECHNICAL DESCRIPTION

- Scalable and validated from **600kW up to 2000kW** engine power
- **New in-house catalyst development:** optimized performances (lower back pressure, mechanical stability)
- Optimized steel thickness to **minimize weight**
- CFD internal studies to ensure **homogeneous distribution**, NH3 slip control, deposit proven design **for any systems arrangement**
- One inlet and **several outlet positions**

Customized options available

***hug**engineering.*

APPLICATIONS

- From 600kW up to 2000kW
- For yacht below 500GT
- Displacement or planning hull
- Possible to add a silencer
- Covers multiple engine brands
